- Comments from our Head Ref
- Teams helping Teams

Housekeeping

1. Parts of this workshop will be recorded

2. Reminder: Dean's List nominations are due by Mar. 15

3. Reminder: All students need to be registered

How to Create a Virtual Pit

https://youtu.be/Hjd_OFE2Uro

What is a Virtual Pit

- Each team has their own breakout room where they can share informati[on] about their team with visitors to their Pit.

- Visitors usually move to a new Pit every 10 minutes so keep your presentation short, but plan to have extra info to share during the questions.

- Think about how to 'decorate' your Virtual Pit so that it identifies your team.

- A team Pit should be the work of student team members.

Notes from Head Ref

Teams are doing a great job learning how to score their own matches this season.

Notes from Head Ref

- People location and activities

Human Player Station

Return Rack

Tower Goal

Target Zone:

Teams helping Teams

A great way teams demonstrate Gracious Professionalism is by helping other teams.

If you are new to *FIRST*, don't be shy about asking for help. You'll have the opportunity to help other teams next year!

Teams helping Teams

If you volunteered to help in a room, please go to that room when they open.

Teams who are still trying to figure out their robot or programming, pick a room and go ask for some help. Students from other teams will be there hoping someone comes in to ask them questions.
