

# ***FIRST*** Tech Challenge Coaches, Mentors

November 2022

# Agenda

- Fall Events
- Dean's List Nominations
- Team Rosters
- What to Bring to a Scrimmage?
- Robot Controller and Driver Station Apps
- Q & A

## Events - Fall Scrimmages

- Nov. 26/27 - St. Patrick's Secondary in Vancouver
- Nov. 26 - St. Margaret's in Victoria
- Dec. 1-7 - Remote Event
- Dec. 3 - Kitimat

*"Every team is ready for a Scrimmage. Bring a box of parts if you have to. The students will learn from other teams, and may have a working robot by the end of the event!"*

## Team Rosters

- Students must be registered through the *FIRST* online system  
Hold a Parent's night to help everyone sign up at the same time.
- Print your Team Roster from the *FIRST* dashboard.

# Dean's List

**Teams must submit their Dean's List Nominations  
by Dec. 15, 2022.**

[Dean's List Nomination Guide](#)

## Events - What to Bring

- Team Roster
- Safety Glasses for everyone with your team
- Robot, batteries, Driver station, Alliance Markers, Beacons
- Have the students review the [Robot Inspection](#) and the [Field Inspection](#) checklists. Inspections will go much faster if teams have already done their own pre-inspection.

Have a plan for lunch or snacks. Most events don't have food available for purchase.

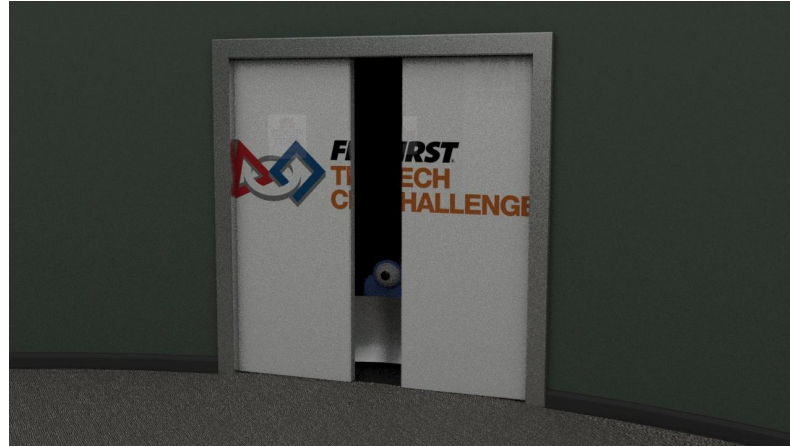

## Robot Controller and Driver Station

- Please make sure you've updated to 8.0 or higher
- A new version of the Robot Controller app is being released this week. Most teams should not update to the newest version until after their first events!

Exception: Teams who purchased a control hub in the last 6 months who need to program with the IMU.

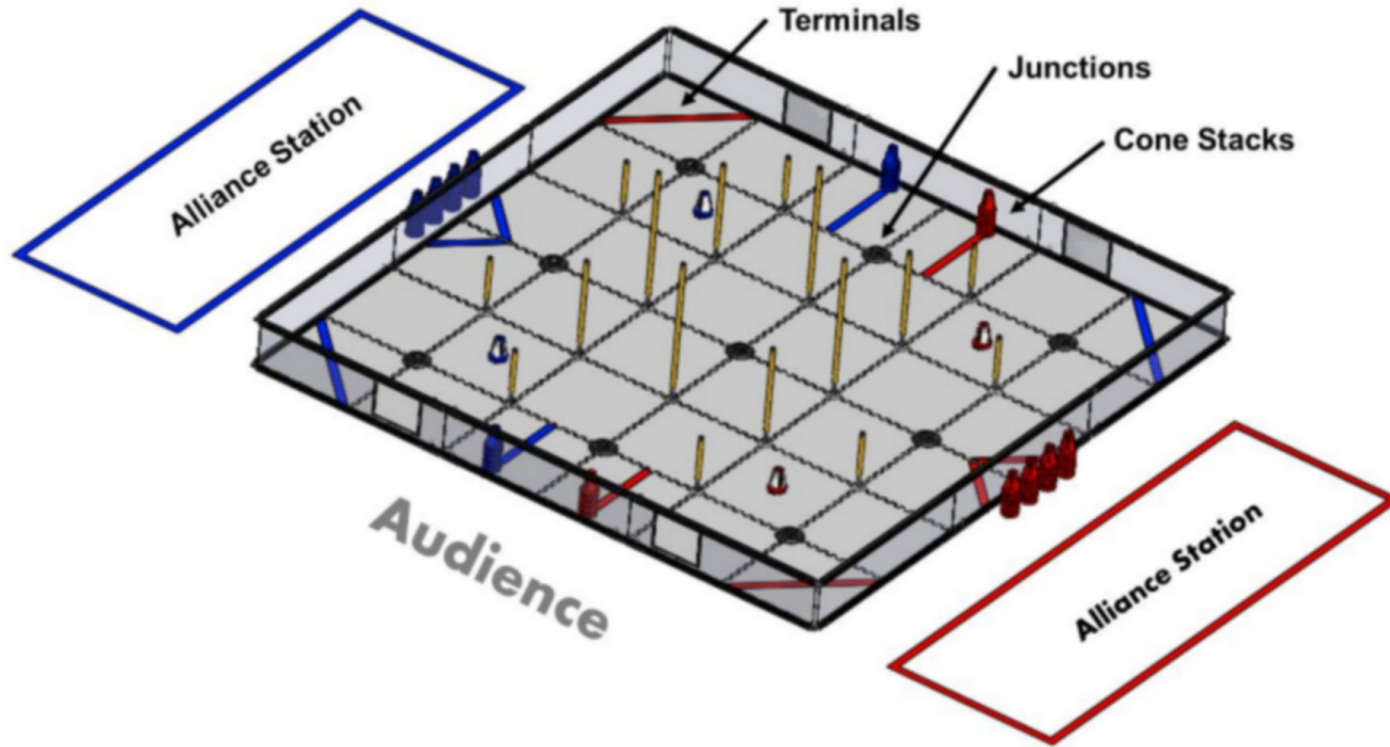

Even in this situation, if your team has found a way to make it work, don't update until after the events this weekend.

# Questions

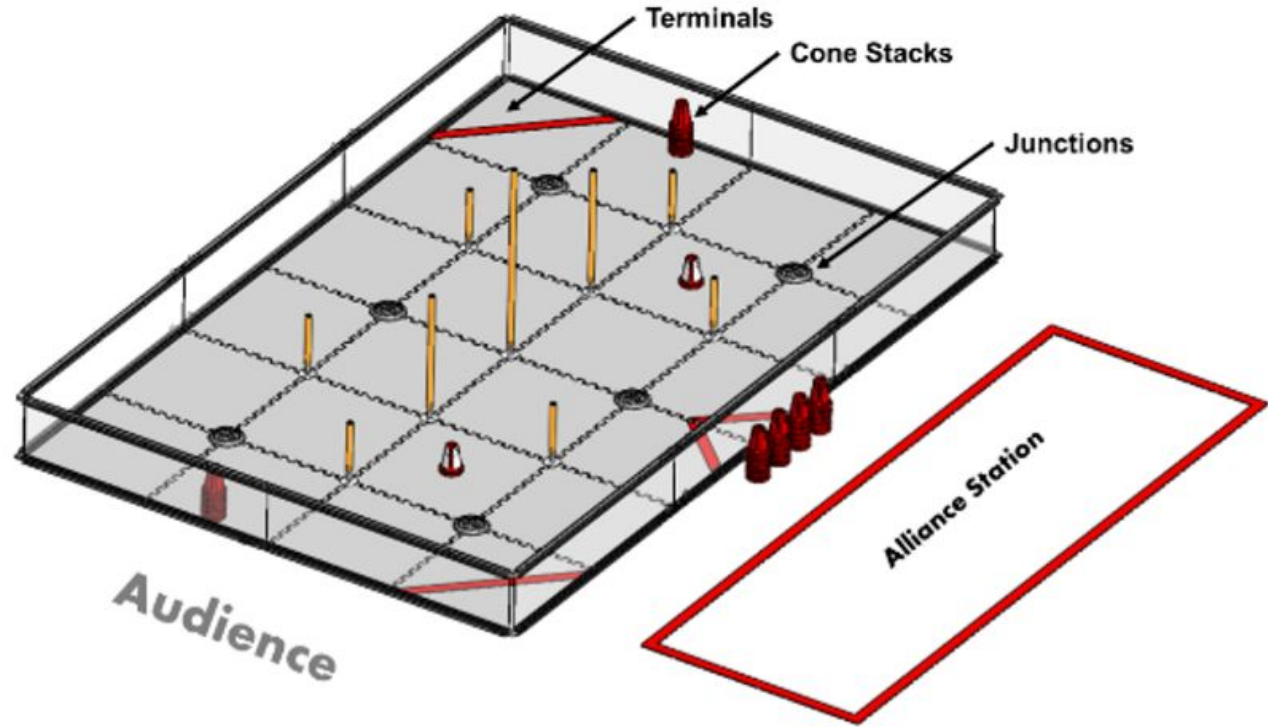

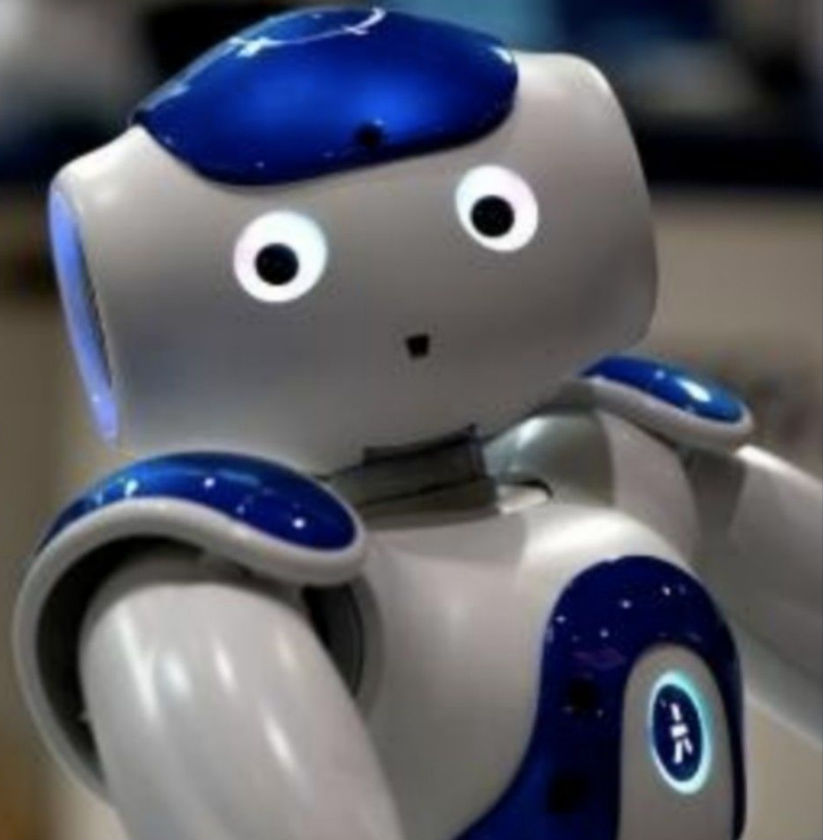

# POWERPLAY Field

# Remote Field Layout

Good  
luck  
Teams!
