FTC Judging Information

2024/25

"More than Robots®"

FTC Awards

Portfolio − No Longer a Hard Requirement for all Awards

Portfolio

Pit Interviews

Formal Interviews

- Judging is a process to celebrate the hard work of our teams.

- Allows for multiple ways for teams to communicate the information to judges.

- Engineering Portfolio is required to win Control, Think, or Inspire Awards.

Awards and Judging Changes

- Control Award content is included within the 15-page limit of the Engineering Portfolio.

- No Promote Award.

- Portfolio is no longer a hard requirement for all awards. At an event, all teams are eligible to win some awards and be recognized.

- Recording audio or video is not permitted during interviews

Judging Tips

- Gracious professionalism will be considered for all awards.

- Judges will expect all team members to be at the Judging interview.

- Judges like to hear from all team members during the interview.

- Submit a portfolio. It is your team's voice during judging deliberations.

- Judges may look at other printed material during a pit visit, but they are not allowed to take it with them.
